

FairShare Sprint 1 Report

Product Name: FairShare
Team Name: FairShare Team
Sprint Completion Date: 4/15/19

Actions to STOP doing

- The team should stop working on local branches and start working from the shared repository.

Actions to START doing

- The team should start coding together more so that we can bounce off ideas with each other and ask for help
- The team should start pushing code more often to the repository. This way, we have a better understanding of each other's work and progress.
- Integrate works throughout the sprint.

Actions to KEEP doing

- The team should keep updating each other on each other's progress.
- Keep meeting online if we can't make it in person, instead of canceling or postponing.

Work completed/not completed

- Completed:
 - *User story 2:* As a developer I want to have more payment options on my app, so that my clients will have a easier time using it.
 - *User Story 3:* As a user I want to be able to store pictures of my receipts, so that I can review my charges.
- Not completed:
 - *User story 1:* As a user I want to be able to be able to be able to split the bill between multiple users depending on the items that they have, so that I can charge people for the items that they bought.

Work Completion Rate:

1. Total number of user stories completed: 2.
2. Number of user points completed: 6pts.
3. Total number of estimated ideal work hours: $2 \text{ hrs/day} * 5 \text{ days/week} * 4 \text{ team member} = 50 \text{ hours}$.

4. Total number of hours spent for this sprint: 10 hours/ each member.
5. Total number of days for the sprint: 1 week.
6. Number of sprint finished across all sprint plans: $\frac{1}{4}$.
7. Number of user stories completed across all user stories: 6/ pts.
8. Final sprint burnup chart for this sprint:
